Postal (if outside the U.S.):

Your comment: Does Jerome Powell feel any guilt knowing his policies are why children have died and/or become homeless? Jerome Powell and the federal reserve give billions daily to the wealthy to use to buy back their own stock. If you are hungry, if your child is hungry, if you're homeless, if your child and family are homeless, if you can't afford rent, mortgage, food, bills because of inflation, remember Jerome Powell and the federal reserve decided you deserve for you and your family to starve, die and/or become homeless.
