Your comment: Bank regulators choosing not to hold banks they regulate accountable, resulted in wealth blocks being installed between the economy and United States Government agencies. I don't know why the agencies told on themselves to me. After sharing my records with the entire US Government, I started sharing my records with everyone on the internet. Congress put me in this position. It doesn't care about this domestic threat. Due to JP Morgan, Wells Fargo, Bank of America, Navy Federal Credit Union & First Bank Holding Company all lying to the Courts in 2016, the United States became their owner. Nothing can undo the ownership transfer. I warned them being dishonest would cost them everything. Not my fault they didn't believe me. I lived through the last financial crisis and recovery. A bank tried to take my Mom's home via dishonest means. My knowledge is what kept the dishonest bank at bay. The moment I moved the bank tried again. That time the bank was successful. My Mom died shortly afterwards. I'm Wall Streets worst nightmare. Congress let me off my leash. Before I do anything big, I tell the FBI first. Document ID: R-1815
