for Small Bank Holding Companies**

Issued June 2002

Instructions for Preparation of Parent Company Only Financial Statements for Small Bank Holding Companies

FR Y-9SP

General Instructions

All bank holding companies, regardless of size, are required to submit financial statements to the appropriate Federal Reserve Bank, unless specifically exempted (see description of exemptions below).

Who Must Report on What Forms

The specific reporting requirements for each bank holding company depend upon the size of the holding company, whether the holding company engages in a non-bank activity (either directly or indirectly) involving financial leverage or engages in credit extending activities, or whether the bank holding company has debt outstanding to the general public. Bank holding companies must file the appropriate forms as described below:

- (1) **One Bank Holding Companies With Total Consolidated Assets of Less Than \$150 Million**—Bank holding companies that own or control one subsidiary bank and have total consolidated assets of less than \$150 million must file the *Parent Company Only Financial Statements for Small Bank Holding Companies (FR Y-9SP)* on a semiannual basis, as of the last calendar day of June and December.

For tiered bank holding companies. Except as noted below, when one bank holding companies with total consolidated assets of less than \$150 million own or control, or are owned or controlled by, other bank holding companies (i.e., are tiered bank holding companies), the top-tier holding company must file the FR Y-9SP for the top-tier parent company of the bank holding company. *In addition, such tiered bank holding companies, must also submit, or have the subsidiary bank holding company submit, a separate FR Y-9SP for each lower-tier bank holding company.*

NOTE: When a bank holding company that has total consolidated assets of less than \$150 million is a

subsidiary of a bank holding company with total consolidated assets of \$150 million or more, the bank holding company with total consolidated assets of less than \$150 million would report on the FR Y-9LP rather than the FR Y-9SP.

- (2) **Multibank Holding Companies with Total Consolidated Assets of Less Than \$150 Million, Without any Debt Outstanding to the General Public¹ and Not Engaged in Certain Nonbanking Activities²**—These organizations may file the Parent Company Only Financial Statements for Small Bank Holding Companies (FR Y-9SP) on a semiannual basis, as of the last calendar day of June and December. Before March 1994, all multibank holding companies (i.e., owning or controlling more than one bank as defined by Regulation Y) were required to file the Consolidated Financial Statements for Bank Holding Companies (FR Y-9C), regardless of size. **However, the Reserve Bank with whom the reporting bank holding company (meeting the criteria described above) files its reports may require that the consolidated report be submitted to meet supervisory needs.**

The FR Y-9SP consists of a balance sheet, income statement, and memoranda items.

- (3) **Bank Holding Companies with Total Consolidated Assets of \$150 Million or More and All Multibank Holding Companies with Debt Outstanding to the General Public or Engaged in Certain Nonbanking Activities**—Bank holding

1. Debt outstanding to the general public is defined to mean debt held by parties other than financial institutions, officers, directors, and controlling shareholders of the banking organization or their related interests.

2. Engaged in certain nonbanking activities is defined to mean engaged in a nonbank activity (either directly or indirectly) involving financial leverage or engaged in credit extending activities. Financial leverage is the use of debt to supplement the equity in a company's capital structure.

General Instructions

companies with total consolidated assets of \$150 million or more (the top-tier of a multi-tiered holding company, when applicable) and *all* multi-bank bank holding companies with debt outstanding to the general public or engaged in certain nonbanking activities (as defined), regardless of size, must file:

- (a) **the Consolidated Financial Statements for Bank Holding Companies (FR Y-9C)** quarterly, as of the last calendar day of March, June, September, and December.
- (b) **the Parent Company Only Financial Statements for Large Bank Holding Companies (FR Y-9LP)** quarterly, as of the last calendar day of March, June, September, and December.

Each bank holding company that files the FR Y-9C must submit the FR Y-9LP for its parent company.

For tiered bank holding companies. When bank holding companies with total consolidated assets of \$150 million or more, or multibank holding companies with debt outstanding to the general public or engaged in certain nonbanking activities (as defined), own or control, or are owned or controlled by, other bank holding companies (i.e., are tiered bank holding companies), only the top-tier holding company must file the FR Y-9C for the consolidated bank holding company organization.

EXCEPTION: If a bank holding company owns or controls other bank holding companies that have total consolidated assets of \$1 billion or more, that top-tier bank holding company must submit a FR Y-9C for each such lower-tiered banking organization.

In addition, such tiered bank holding companies, regardless of the size of the subsidiary bank holding company, must also submit, or have the bank holding company subsidiary submit, a separate FR Y-9LP for each lower-tier bank holding company. The instructions for the FR Y-9C and the FR Y-9LP are not included in this instruction booklet, but they may be obtained from the Federal Reserve Bank in the District where the bank holding company files its reports.

Exemptions from Reporting the Bank Holding Company Financial Statements

The following bank holding companies do not have to file bank holding company financial statements:

- (a) a bank holding company that has been granted an exemption under Section 4(d) of the Bank Holding Company Act; or
- (b) “qualified foreign banking organization” as defined by section 211.23(a) of Regulation K (12 CFR 211.23 (a)) that controls a U.S. subsidiary bank.

Bank holding companies that are not required to file under the above criteria may be required to file this report by the Federal Reserve Bank of the district in which they are registered.

Frequency of Reporting

The Parent Company Only Financial Statements for Small Bank Holding Companies (FR Y-9SP) are required to be submitted semiannually as of the last calendar day of June and December.

Shifts in Reporting Status

A one bank holding company that acquires ownership or control of a second bank (i.e., becomes a multibank holding company) either directly or indirectly through the merger with another bank holding company should continue to file the FR Y-9SP if its total consolidated assets remain at less than \$150 million and it does not have any debt outstanding to the general public and is not engaged in certain nonbanking activities (as defined).

When a one bank holding company acquires ownership or control of a second bank (i.e., becomes a multibank holding company), either directly or indirectly through the merger with another bank holding company and also has debt outstanding to the general public or engages in certain nonbanking activities (as defined), it must begin to file the FR Y-9C and the FR Y-9LP (rather than the FR Y-9SP) report forms for the first quarterly report date following the acquisition or merger.

A one bank holding company that reaches \$150 million or more in total consolidated assets should begin reporting on the FR Y-9C report form in the quarter following the report on which its total consolidated assets reaches or exceeds \$150 million. In general, once a bank holding

General Instructions

company exceeds \$150 million in total consolidated assets and begins filing the FR Y-9C, it should always file the FR Y-9C.

When a multibank holding company through the consolidation or sale of its banks becomes a one bank holding company, it may file the FR Y-9SP (rather than the FR Y-9C and FR Y-9LP) if its total consolidated assets are below \$150 million. **However, the Reserve Bank with whom the reporting bank holding company files its reports may require, after notifying the holding company, that the consolidated report be submitted to meet supervisory needs.**

Organization of the Instruction Book

The instruction book is divided into three sections:

- (1) The General Instructions describe overall reporting requirements.
- (2) The Line Item Instructions for the income report for the parent company only of the bank holding company.
- (3) The Line Item Instructions for the balance sheet for the parent company only of the bank holding company.

Additional copies of this instruction book may be obtained from the Federal Reserve Bank in the district where reporting bank holding company submits its FR Y-9SP reports, or may be found on the Federal Reserve Board's public website (www.federalreserve.gov).

Preparation of the Reports

Bank holding companies are required to prepare and file the Parent Company Only Financial Statements for Small Bank Holding Companies in accordance with generally accepted accounting principles (GAAP) and these instructions. All reports shall be prepared in a consistent manner.

The bank holding company's financial records shall be maintained in such a manner and scope so as to ensure that the Parent Company Only Financial Statements for Small Bank Holding Companies can be prepared and filed in accordance with these instructions and reflect a fair presentation of the bank holding company's financial condition and results of operations. Questions and

requests for interpretations of matters appearing in any part of these instructions should be addressed to the appropriate Federal Reserve Bank (that is, the Federal Reserve Bank in the district where the bank holding company submits this report).

Accrual Basis Reporting

All reports must be prepared on an accrual basis. On the accrual basis, income is recognized at the time it is earned, not necessarily when it is received. Expenses are recognized as they are incurred, not necessarily when they are paid.

Equity Method of Accounting for Investments in Bank and Nonbank Subsidiaries and Associated Companies

Each bank holding company in preparing its parent company only financial statements shall account for all investments in subsidiaries, associated companies, and those corporate joint ventures over which the bank holding company exercises significant influence according to the equity method of accounting, as prescribed by GAAP. The equity method of accounting is described in items 4, 5, and 6 on the Balance Sheet.

Signatures

The Parent Company Only Financial Statements for Small Bank Holding Companies must be signed by an authorized officer of the bank holding company.

Submission of the Reports

The reports are to be submitted for each report date on the report forms provided by the Federal Reserve Bank in the district where the majority of the parent bank holding company's subsidiary commercial bank deposits are located or where the bank holding company has traditionally reported. No caption on the report forms shall be changed in any way.

No item is to be left blank. An entry must be made for each item, i.e., an amount, a zero, or an "N/A."

A "N/A" should be entered only if the reporting bank holding company cannot report a line item because of the nature of their organization. For example, if the parent

General Instructions

company does not own any subsidiary bank holding companies, a “N/A” should be entered in the Balance Sheet items 6(a), 6(b), and 6(c). A zero should be entered whenever a parent company can participate in an activity, but does not, on the report date, have any outstanding balances.

All reports shall be made out clearly and legibly by typewriter or in ink. Reports completed in pencil will not be accepted.

Bank holding companies may submit computer printouts in a format identical to that of the report form, including all item and column captions and other identifying numbers.

Where to Submit the Reports

The completed and manually signed original reports and the specified number of copies shall be submitted to the Federal Reserve Bank in the district where the majority of the top-tier bank holding company’s commercial bank deposits are located or where the bank holding company has traditionally reported.

Legible photocopies are preferred. However, when carbons are used to prepare copies, the copies must be legible and prepared carefully to ensure that the figures and other information appear in the correct position on all copies.

All copies shall bear the same signatures as on the originals, but these signatures may be facsimiles or photocopies.

Electronic submission of Report Forms. Federal Reserve Banks offer bank holding companies with total consolidated assets of less than \$150 million in their Districts the option of submitting their FR Y-9SP electronically. Any bank holding company interested in submitting the FR Y-9SP electronically should contact the Federal Reserve Bank in the district where the majority of the top-tier bank holding company’s commercial bank deposits are located or where the bank holding company has traditionally reported. Bank holding companies choosing to submit these reports electronically must maintain in their files a manually signed and attested printout of the data submitted. The cover page of the Reserve Bank supplied report forms received for that report date should be used to fulfill the signature and

attestation requirement and this page should be attached to the printout placed in the bank holding company’s files.

Submission Date

The completed Parent Company Only Financial Statements for Small Bank Holding Companies shall be submitted no more than 45 calendar days after the report date. For example, the June 30 report shall be submitted by August 14 and the December 31 report shall be submitted by February 14. Earlier submission would aid the Federal Reserve in reviewing and processing the reports and is encouraged. No extensions of time for submitting reports are granted.

The filing of a bank holding company’s completed report will be considered timely, regardless of when the reports are received by the appropriate Federal Reserve Bank, if these reports are mailed first class and postmarked no later than the third calendar day preceding the submission deadline. In the absence of a postmark, a bank holding company whose completed FR Y-9SP is received late may be called upon to provide proof of timely mailing. A “Certificate of Mailing” (U.S. Postal Service Form 3817) may be used to provide such proof. If an overnight delivery service is used, entry of the completed original reports into the delivery system on the day before the submission deadline will constitute timely submission. In addition, the hand delivery of the completed original reports on or before the submission deadline to the location to which the reports would otherwise be mailed is an acceptable alternative to mailing such reports. Bank holding companies that are unable to obtain the required officer signature on their completed original reports in sufficient time to file these reports so that they are received by the submission deadline may contact the district Federal Reserve Banks to which they mail their original reports to arrange for the timely submission of their report data and the subsequent filing of their signed reports.

If the submission deadline falls on a weekend or holiday, the report must be received by 5:00 P.M. on the first business day after the Saturday, Sunday, or holiday. Any report received after 5:00 P.M. on the first business day after the Saturday, Sunday, or holiday deadline will be considered late unless it has been postmarked three calendar days prior to the original Saturday, Sunday, or

General Instructions

holiday submission deadline (original deadline), or the institution has a record of sending the report by overnight service one day prior to the original deadline.

Amended Reports

The Federal Reserve may require the filing of amended Parent Company Only Financial Statements for Small Bank Holding Companies if reports as previously submitted contain significant errors. In addition, a bank holding company should file an amended report when internal or external auditors make audit adjustments that result in a restatement of financial statements previously submitted to the Federal Reserve.

In addition, the Federal Reserve requests bank holding companies that have restated their prior period financial statements as a result of an acquisition accounted for on a pooling of interest basis to submit revised reports for the prior year-ends. In the event that certain of the required data is not available, bank holding companies should contact the appropriate Reserve Bank for information on submitting revised reports.

Confidentiality

The completed version of this report is available to the public upon request on an individual basis. However, a reporting bank holding company may request confidential treatment for the Parent Company Only Financial Statements for Small Bank Holding Companies (FR Y-9SP) if the bank holding company is of the opinion that disclosure of specific commercial or financial information in the report would likely result in substantial harm to its competitive position, or that disclosure of the submitted information would result in unwarranted invasion of personal privacy.

A request for confidential treatment must be submitted in writing concurrently with the submission of the report. The request must discuss *in writing* the justification for which confidentiality is requested and must demonstrate the specific nature of the harm that would result from public release of the information; merely stating that competitive harm would result or that information is personal is not sufficient.

WHEN CONFIDENTIAL TREATMENT IS REQUESTED, THE FR Y-9SP COVER SHEET SHOULD

BE LABELED “CONFIDENTIAL.” THIS INFORMATION SHOULD BE SPECIFICALLY IDENTIFIED AS BEING CONFIDENTIAL.

Information, for which confidential treatment is requested, may subsequently be released by the Federal Reserve System if the Board of Governors determines that the disclosure of such information is in the public interest.

Miscellaneous General Instructions

Rounding

All bank holding companies must report all dollar amounts in thousands, with the figures rounded to the nearest thousand. Items less than \$500 will be reported as zero. Rounding could result in details not adding to their stated totals. However, in order to ensure consistent reporting, the rounded detail items should be adjusted so that totals and the sums of their components are identical.

On the Parent Company Only Financial Statements for Small Bank Holding Companies, “Total assets” (Balance Sheet, item 9) and “Total liabilities and equity capital” (Balance Sheet, item 17), which must be equal, must be derived from unrounded numbers and then rounded in order to ensure that these two items are equal as reported.

Negative Entries

Except for the items listed below, negative entries are generally not appropriate on the FR Y-9SP and should not be reported. Hence, assets with credit balances must be reported in liability items and liabilities with debit balances should be reported in asset items, as appropriate, and in accordance with these instructions. Items for which negative entries may be made include:

- (1) Balance Sheet, items 4(a), 5(a), and 6(a) “Equity investment in bank subsidiary,” “Equity investment in nonbank subsidiary(s),” and “Equity investment in subsidiary bank holding company(s).”
- (2) Balance Sheet, items 4(b), 5(b), and 6(b), “Goodwill associated with investment in bank subsidiary,” “Goodwill associated with investment in nonbank subsidiary,” and “Goodwill associated with investment in subsidiary bank holding company.”
- (3) Balance Sheet, item 16(c), “Retained earnings.”

General Instructions

- (4) Balance Sheet, item 16(d), “Accumulated other comprehensive income.”
- (5) Balance Sheet, item 16(e), “Other equity capital components.”

When negative entries do occur in one or more of these items, they shall be recorded in parentheses rather than with a minus (–) sign.

On the Parent Company Only Income Statement, negative entries may appear as appropriate. Income items with a debit balance and expense items with a credit balance must be reported in parentheses.

Verification

All addition and subtraction should be double-checked before reports are submitted. Totals and subtotals in supporting materials should be cross-checked to corresponding items elsewhere in the reports.

Before a report is submitted, all amounts should be compared with the corresponding amounts in the previous report. If there are any unusual changes from the previous report, a brief explanation of the changes should be attached to the submitted reports.

Bank holding companies should retain workpapers and other records used in the preparation of these reports.

In order to be an S corporation, the bank holding company must have a valid election with the Internal Revenue Service and obtain the consent of all of its shareholders. NOTE: The amount of interest expense paid to special-purpose subsidiaries that have issued trust preferred securities reported in this item should also be included as part of the total amount reported in the Income Statement, item 7, "Other expenses." See the instructions for Income Statement item 7.

LINE ITEM INSTRUCTIONS FOR THE

Balance Sheet

Assets

Line Item 1 Cash and due from depository institutions.

Report in the appropriate item below cash and deposit balances, both noninterest-bearing and interest-bearing, due from depository institutions. Balances due from depository institutions that are subsidiaries or affiliated institutions should be reported on item 1(a). Balances due from all other (i.e., unrelated, or third party) depository institutions should be reported on item 1(b).

Affiliated depository institutions include those institutions that have a direct or indirect relationship with the reporting parent bank holding company.

Overdrafts should not be reported in this item. Overdrafts with subsidiaries or affiliated companies should be reported under item 14, "Balances due to subsidiaries and related institutions." Overdrafts with unrelated or third party depository institutions should be reported under item 10(b), "Other short-term borrowings."

Depository institutions include U.S. commercial banks, savings and loan institutions, mutual savings banks, foreign banks, and any other similar depository institutions.

Line Item 1(a) Balances with subsidiary or affiliated depository institutions.

Report all currency and coin, demand, time and savings balances, and other cash items due from, or held with, subsidiary or affiliated depository institutions.

Line Item 1(b) Balances with unrelated depository institutions.

Report all currency and coin, demand, time and savings balances, and other cash items due from, or held with, unrelated depository institutions.

Line Item 2 Securities.

Report in this item the total value of all debt securities and all equity securities with readily determinable fair values, other than investments in the bank subsidiary(s), nonbank subsidiary(s), associated banks, and associated nonbank company(s), held by the respondent parent bank holding company. Securities designated as "available-for-sale" must be reported at fair value and securities designated as "held-to-maturity" must be reported at amortized cost in accordance with FASB Statement No. 115. The net unrealized holding gains (losses) on available-for-sale securities must be reported in item 16(d), "Accumulated other comprehensive income." The amount reported in item 2 must equal the sum of memoranda items 7(a) and 7(b).

Exclude equity securities held by the parent bank holding company that do not have readily determinable fair values, which are to be reported in item 7 below.

Debt securities include, but are not limited to: U.S. Treasury securities, U.S. Government agency and corporation obligations, commercial paper, securities issued by states and political subdivisions in the U.S. and notes, bonds or debentures issued by private corporations.

Debt securities must include amortization of premium and accretion of discount on securities purchased at other than par or face value (including U.S. Treasury bills).

Equity securities include common stock, perpetual preferred stock, and warrants.

Equity securities owned by a holding company are defined as available-for-sale securities in accordance with FASB Statement No. 115 and must be reported at fair value as of the report date. The fair value of securities should be determined, to the extent possible, by

Balance Sheet

timely reference to the best available source of current market quotations or other data on relative current value. For example, securities traded on national, regional, or foreign exchanges or on organized over-the-counter markets should be valued at the most recently available quotation in the most active market. Quotations from brokers or others making markets in securities that are neither widely nor actively traded are acceptable if prudently used. Equity securities for which fair value is not readily determinable may be reported at historical cost.

Line Item 3 Loans and lease financing receivables (exclusive of loans and lease financing receivables due from bank(s) and nonbank subsidiaries).

Line Item 3(a) Loans and leases, net of unearned income.

Loans and lease financing receivables are extensions of credit resulting from either direct negotiation between the bank holding company itself and its borrowing customers or the purchase of loans and participations in loans from others. This includes loans and participations in loans purchased *without recourse* from the respondent bank holding company's bank subsidiary(s) or its nonbank subsidiaries. Do *not* report direct loans or loans purchased with recourse from bank subsidiary(s) or nonbank subsidiary(s) in this item; these loans should be reported in item 4(c) below.

Report the aggregate book value of all loans and leases before deduction of the "Allowance for loan and lease losses," which is to be reported in item 3(b). The amount reported should be reported net of unearned income. Parent bank holding companies may also report these amounts net of any allocated transfer risk reserve.

The amount reported in this item should include the amount reported in memoranda item 5 below that has been lent by the parent bank holding company to executive officers and principal shareholders and their related interests, but should *exclude* amounts reported in memoranda item 5 that have been lent by a nonbank subsidiary(s) to insiders.

Exclude intercompany loans from this item. Loans to the bank subsidiary(s) should be reported in item 4(c) below; loans to the nonbank subsidiary(s) should be reported in item 5(c) below. Also exclude all holdings of commercial paper, which should be reported in item 2 above.

Line Item 3(b) Less: Allowance for loan and lease losses.

Report the allowance for loan and lease losses. The amount reported should reflect an evaluation by the management of a bank holding company of the collectability of the loan and lease financing receivable portfolios, including any accrued and unpaid interest. The amount of the allowance on the balance sheet should be adequate to absorb anticipated losses.

Line Item 3(c) Loans and leases, net of unearned income and the allowance for loan and lease losses.

Report the amount derived by subtracting item 3(b) from 3(a).

Line Item 4 Investment in bank subsidiary(s).

The investment in the bank subsidiary(s) must be reported under the equity method of accounting on the FR Y-9SP. Under the equity method, the original investment in the bank subsidiary(s) is recorded at cost and is adjusted periodically to recognize the bank holding company's share of the earnings or losses of the bank subsidiary(s) after the date of the acquisition of the bank(s) by the holding company. Dividends paid by the bank(s) and received by the bank holding company reduce the amount of the investment while the bank holding company's share of the undistributed earnings of the bank subsidiary(s) (reported in item 12(a) of the Income Statement) increases the amount of the investment in the bank subsidiary(s) as reported in the FR Y-9SP.

Bank holding companies that own shares in an associated bank or banks (those banks in which the bank holding company controls between 20 and 25 percent) should also report their investment in the equity capital of these banks on the equity basis of accounting.

Line Item 4(a) Equity investment in bank subsidiary(s).

Report the amount of the bank holding company's investment in the book value of the equity capital of the bank subsidiary(s) as of the reporting date. This amount generally should be equivalent to the bank holding company's proportionate interest in the equity capital accounts of the bank subsidiary(s) as reported in the bank's Report of Condition in Schedule RC-Balance

Balance Sheet

Sheet, item 28. (See **Worksheet for clarification. A worksheet has been provided to assist in the preparation of the response to this item.**) The bank holding company, if applicable, should also include investments in the stock of any associated banks (those banks in which the bank holding company controls between 20 and 25 percent).

This item also includes the net unrealized holding gains (losses) on available-for-sale securities that are recorded by the bank subsidiary(s) and associated bank(s).

Line Item 4(b) Goodwill.

Report the amount (book value) of the goodwill associated with the acquisition of the bank subsidiary(s) that has not been “pushed down” to the books of the bank subsidiary(s) for financial reporting purposes. The amount of the goodwill associated with investment in the bank subsidiary(s) should generally be equivalent to the difference between the original cost of the shares of the bank subsidiary(s) and the book value of the bank holding company’s proportionate share of the equity capital accounts of the bank subsidiary(s) on the date of acquisition.

For purposes of this item, any goodwill that has not been pushed down to the books of the subsidiary bank(s), and is included in the investment in subsidiary account on the parent’s books, should be reported in this item. Any goodwill that has been pushed down to the books of the subsidiary bank(s) should not be reported separately in this item. The amount pushed down would be reported in line item 4(a), “Equity investment in bank subsidiary(s).”

Line Item 4(c) Loans and advances to and receivables due from bank subsidiary(s).

Report the total of all loans to the bank subsidiary(s); notes, bonds, or subordinated debentures issued by the bank subsidiary(s) that are held by the bank holding company; dividends declared by the bank subsidiary(s), but not yet paid; and any other accounts receivable, including tax receivables, from the bank subsidiary(s). The amount reported should include loans and participation in loans purchased with recourse by the bank holding company from the bank subsidiary(s).

Line Item 5 Investment in nonbank subsidiary(s).

The investment in nonbank subsidiary(s) must also be

reported under the equity method of accounting on the FR Y-9SP. Under the equity method, the original investment in the nonbank subsidiary(s) is recorded at cost and is adjusted periodically to recognize the bank holding company’s share of the earnings or losses of the nonbank subsidiary(s) after the date of the acquisition of the nonbank subsidiary(s) by the holding company. Dividends paid by the nonbank subsidiary(s) and received by the bank holding company reduce the amount of the investment, while the bank holding company’s share of the undistributed earnings of the nonbank subsidiary(s) (reported in item 12(b) of the Income Statement) increase the amount of the investment in the nonbank subsidiary(s) as reported in the FR Y-9SP.

If the reporting bank holding company is a tiered bank holding company, the investment in subsidiary bank holding company(s) should be reported in the appropriate subitems 6(a), 6(b), or 6(c).

Line Item 5(a) Equity investment in nonbank subsidiary(s).

Report the amount of the bank holding company’s investment in the book value of the equity capital of the nonbank subsidiary(s) as of the reporting date. This amount generally should be equivalent to the bank holding company’s proportionate interest in the nonbank subsidiary’s equity capital accounts as reflected on the financial statements of the nonbank subsidiary as of the report date. The bank holding company, if applicable, should also include investments in the stock of any associated nonbank company(s) (those nonbank company(s) in which the bank holding company controls between 20 and 25 percent).

This item also includes the net unrealized holding gains (losses) on available-for-sale securities that are recorded by the nonbank subsidiary(s).

Line Item 5(b) Goodwill (associated with the investment in the nonbank subsidiary(s)).

Report the amount (book value) of the goodwill associated with the acquisition of the nonbank subsidiary(s) that has not been “pushed down” to the books of the nonbank subsidiary(s) for financial reporting purposes. The amount of the goodwill should generally be equivalent to the difference between the original cost of the shares of the nonbank subsidiary(s) and the book value

For purposes of this item, any goodwill that has not been pushed down to the books of the nonbank subsidiary(s), and is included in the investment in subsidiary account on the parent's books, should be reported in this item. Any goodwill that has been pushed down to the books of the nonbank subsidiary(s) should not be reported separately in this item. The amount pushed down would be reported in line item 5(a), "Equity investment in nonbank subsidiary(s)."

Line Item 5(c) Loans and advances to and receivables due from nonbank subsidiary(s).

Report the total of all loans to nonbank subsidiary(s); notes, bonds, or subordinated debentures issued by the nonbank subsidiary(s) that are held by the bank holding company; dividends declared by the nonbank subsidiary(s), but not yet paid; and any other accounts receivable due from the nonbank subsidiary(s).

Line Item 6 Investments in subsidiary bank holding company(s).

The investment in subsidiary bank holding companies must be reported under the equity method of accounting on the FR Y-9SP. Under the equity method, the original investment in the subsidiary bank holding company by the holding company directly owning the shares is recorded at cost and is adjusted periodically to recognize the reporting parent bank holding company's share of the earnings or losses of the subsidiary bank holding company after the date of the acquisition of the subsidiary bank holding company by the reporting parent holding company. Dividends declared or paid by the subsidiary bank holding company and received by the reporting parent bank holding company reduce the amount of the investment while the reporting parent bank holding company's share of the undistributed earnings of the subsidiary bank holding company (reported in Income Statement item 12(c)) increase the amount of the investment in the subsidiary bank holding company as reported in the parent bank holding company's FR Y-9SP.

In addition, the reporting parent bank holding companies that own shares in an associated lower-tier bank holding

company (those lower-tier bank holding companies in which the parent bank holding company controls between 20 and 25 percent) should also report their investment in the equity capital of these companies on the equity basis of accounting.

Line Item 6(a) Equity investment.

Report the amount of the reporting parent bank holding company's investment in the book value of the equity capital of the subsidiary bank holding company(s) as of the reporting date. This amount generally should be equivalent to the reporting parent bank holding company's proportionate interest in the equity capital accounts of the subsidiary bank holding company as reported *separately* in the subsidiary bank holding company's filing of the FR Y-9SP on the Balance Sheet, item 16(f). The reporting parent bank holding company, if applicable, should also include investments in the stock of any associated bank holding companies (those other bank holding companies in which the reporting parent bank holding company controls between 20 and 25 percent).

This item also includes the net unrealized holding gains (losses) on available-for-sale securities that are recorded by the subsidiary bank holding company(s) and associated bank holding company(s).

Line Item 6(b) Goodwill.

Report the amount (book value) of the goodwill associated with the acquisition of the subsidiary bank holding company that has not been "pushed down" to the books of the subsidiary bank holding company for financial reporting purposes. The amount of the goodwill associated with investment in the subsidiary bank holding company should generally be equivalent to the difference between the original cost of the shares of the subsidiary bank holding company and the book value of the reporting parent bank holding company's proportionate share of the equity capital accounts of the subsidiary bank holding company on the date of acquisition.

For purposes of this item, any goodwill that has not been pushed down to the books of the subsidiary bank holding company, and is included in the investment in subsidiary account on the parent's books, should be reported in this item. Any goodwill that has been pushed down to the books of the subsidiary bank holding company should not be reported separately in this item.

Balance Sheet

The amount pushed down would be reported in line item 6(a), "Equity investment in subsidiary bank holding company(s)."

Line Item 6(c) Loans and advances to and receivables due from the subsidiary bank holding company.

The amount reported should include loans and participations in loans purchased with recourse by the reporting parent bank holding company from the subsidiary bank holding company.

Line Item 7 Other assets.

Report the total value of remaining assets not reported in the above categories, other than investments in the bank-subsidiary, nonbank subsidiary(s), associated banks, and associated nonbank company(s).

The amount reported in this item should also include the value of any assets associated with nonbanking activities that are directly engaged in by the parent bank holding company.

Include equity securities held by the parent bank holding company that do not have readily determinable fair values.

Also report in this item the amount (book value) of goodwill that is included on the balance sheet of the reporting bank holding company and is not part of the investment in subsidiaries account as reported in items 4(b), 5(b) or 6(b).

Line Item 8 Balances due from related nonbank companies (other than investments).

This item should be completed only by lower-tier parent bank holding companies.

Report in this item all balances due from and extensions of credit to related nonbank companies (i.e., nonbank companies directly or indirectly owned by the top-tier parent bank holding company, excluding those directly or indirectly owned by the reporting lower-tier parent

bank holding company). *Exclude* those balances (including investments) included in items 5 and 6 above. Also *exclude* cash and balances due from related depository institutions, which are to be reported in item 1(a) above.

Overdrafts to cash and due from depository institutions should be reported in this item.

Short-term borrowing from the subsidiary bank(s) should be reported in item 14(a) and from the parent bank holding company and subsidiary bank holding company(s) in item 14(b) and in Memoranda items 14(a) and 14(b).

In addition, for purposes of this report, include in this item instruments generally referred to as trust preferred securities that were issued out of special purpose entities whereby the proceeds from the issuance are lent to the reporting parent company.

Net unrealized holding gains (losses) on available-for-sale securities is the difference between the amortized cost and fair value of the reporting bank holding company and its consolidated subsidiaries' available-for-sale securities, net of tax effects, as of the report date.

Also include in this item the unamortized amount of the unrealized holding gain or loss at the date of transfer of any debt security transferred into the held-to-maturity category from the available-for-sale category. NOTE: When the reporting bank holding company has included in item 16 above the ESOP's long-term debt that it has explicitly or implicitly guaranteed, include in this item the dollar amount of the offsetting debit to the liability recorded by the reporting bank holding company in connection with that debt. Report the amount of both short-term and long-term borrowings (parent company only) reported in items 10 and 11 above that are not held by financial institutions or by bank holding company's officers, directors, and shareholders and their related interests. Also, exclude limited-life preferred stock reported in item 11 above.**

Report the amortized cost of all held-to-maturity securities and the fair value of all available-for-sale securities held by the reporting bank holding company (parent company only) that are pledged to secure deposits, repurchase transactions, or other borrowings (regardless of the balance of liabilities against which the securities are pledged), as performance bonds on futures or forward contracts, or for any other purpose.

Line Item M7(a) Fair value of securities classified as available-for-sale in item 2 of the balance sheet.

Report in this item the fair value of all securities included in the balance sheet, item 2, "Securities," that have been designated as available-for-sale. The fair value (market value) of securities should be determined, to the extent possible, by timely reference to the best available source of current market quotations or other data on relative current value. For example, securities traded on national, regional, or foreign exchanges, or on organized over-the-counter markets should be valued at the most recently available quotation in the most active market. Quotations from brokers or others making markets in securities that are neither widely nor actively traded are acceptable if prudently used. Unrated debt securities for which no reliable market price data are available may be valued at cost adjusted for amortization of premium or accretion of discount unless credit problems of the obligor or upward movements in the level of interest rates warrant a lower estimate of current value. Equity securities that do not have readily determinable fair values shall be reported at historical cost. (NOTE: The sum of item 7(a) and 7(b) must equal the total amount reported in item 2 of the balance sheet).

Line Item M7(b) Amortized cost of securities classified as held-to-maturity in item 2 of the balance sheet.

Enter a "2" for no if it has not yet submitted all changes to investments and activities on the FR Y-10. The name of the holding company official responsible for verifying that the FR Y-10 has been completed should be typed or printed on the line provided whether the answer is "yes," or "no." In addition, enter the area code and phone number of the official responsible for verifying the FR Y-10.

I Line Item M17 Total combined nonbank assets of nonbank subsidiaries.

This item is to be completed only by the financial top-tier parent bank holding company (and single-tier bank holding companies) that files the FR Y-9SP. Lower-tier bank holding companies that file this report should enter “N/A” in memorandum items 17(a) through 17(d).

If the top-tier parent bank holding company is an ESOP, then the lower-tier parent bank holding company should report in memorandum items 17(a) through 17(d). The top-tier ESOP bank holding company should enter “N/A” in memorandum items 17(a) through 17(d).

I Line Item M17(a) Total combined nonbank assets of nonbank subsidiaries.

Report the dollar amount of the reporting bank holding company’s total combined nonbank assets of nonbank subsidiaries. Nonbank assets include the assets of all foreign and domestic nonbank subsidiaries (as defined below) and their majority-owned direct and indirect subsidiaries.

The top-tier parent bank holding company should report in this item all assets of nonbank subsidiaries, whether held directly or indirectly or held through lower-tier bank holding companies. The lower-tier parent bank holding company in a multi-tier bank holding company who files this report (FR Y-9SP) should enter “N/A” in memorandum items 17(a) through 17(d).

The term “**subsidiary**,” is defined by Section 225.2 of Federal Reserve Regulation Y, which generally includes companies 25 percent or more owned or controlled by another company. **However, for purposes of this reporting item, the term “subsidiary” includes only companies in which the bank holding company directly or indirectly owns or controls more than 50 percent of the outstanding voting stock, and these companies would be consolidated using generally accepted accounting principles for financial reporting purposes.**

Nonbank subsidiaries, for purposes of this reporting item, include but are not limited to: securities brokerage and underwriting firms (including Section 20 subsidiaries); federal savings associations, federal savings banks and thrift institutions (including any thrift institution filing the Thrift Financial Report); depository institutions (other than U.S. banks); industrial banks that do not file the commercial bank Reports of Condition and Income with the federal banking agencies; Edge and Agreement corporations and their subsidiaries that are *not* held through a bank subsidiary; industrial loan companies; venture capital corporations; leasing companies; bank premises subsidiaries; mortgage banking companies; consumer finance companies; sales finance companies; acceptance corporations; factoring companies; insurance brokerage and insurance underwriting companies; small business investment companies; data processing and information services companies; nondepository trust companies; management consulting companies; courier service companies; companies that print or sell MICR encoded items; financial and investment advisory companies; credit bureaus; collection agencies; real estate settlement companies.

For purposes of this reporting item, foreign nonbank subsidiaries include those subsidiaries that meet the definition of a nonbank subsidiary provided above that would be consolidated using generally accepted accounting principles for financial reporting purposes, but are not domiciled in the U.S. In addition, Edge and Agreement corporations and their subsidiaries that are *not* held through a bank subsidiary should be reported as foreign nonbank subsidiaries.

Nonbank subsidiaries exclude all banks (including commercial, savings and industrial banks that file the commercial bank Reports of Condition and Income) and their

Balance Sheet

subsidiaries; Edge and Agreement corporations and their subsidiaries that are held through a bank subsidiary.

All intercompany assets among the nonbanking subsidiaries should be eliminated, but assets with the reporting bank holding company and with subsidiary banks should be included. For example, eliminate the loans made by one nonbank subsidiary to a second nonbank subsidiary, but do not eliminate loans made by one nonbank subsidiary to the parent bank holding company or a subsidiary bank.

Include the combined assets of inactive nonbanking subsidiaries to the extent that the top-tier bank holding company directly or indirectly owns or controls more than 50 percent of the outstanding voting stock, and these companies would be consolidated using generally accepted accounting principles for financial reporting purposes.

Enter “zero” if the reporting top-tier bank holding company does not have any nonbank subsidiary assets to report.

Line Item M17(c) Number of nonbank subsidiaries included in M17(a).

Report the **number** of federal savings associations, federal savings banks and thrift subsidiaries (including any thrift institution filing the Thrift Financial Report) that are included in the total combined nonbank subsidiary

assets reported in line item 17(b) above. Enter “zero” if the reporting top-tier bank holding company does not have any thrift subsidiaries to report.

Determination for filing the FR Y-12 report (Memoranda Line Items 18, 19, 20)

The following three questions will be used to determine if the reporting bank holding company must complete the Consolidated Bank Holding Company Report of Equity Investments in Nonfinancial Companies (FR Y-12). In a multi-tiered organization with one or more bank holding companies (BHCs), only the top-tier BHC should complete items 18 through 20 on a consolidated basis. However, if a lower-tier BHC is functioning as the consolidated top-tier reporter for other financial reports (for example, when the top-tier is a non-U.S. BHC, ESOP, or limited partnership), this lower-tier BHC should complete memoranda items 18 through 20 on a consolidated basis.

Line Item M17 Do your aggregate nonfinancial equity investments exceed (on an acquisition cost basis) 5 percent of the BHC’s total capital as of the report date?

Enter a “1” if the answer to this question is yes. Enter a “2” if the response to this question is no. If the answer to this question is no, your organization does not need to complete the FR Y-12. Skip items 19 and 20. If the answer to this question is yes, proceed to items 19 and 20 below.

For purposes of this question, an *equity investment* refers to common stock, partnership interests, convertible preferred stock, convertible debt, and warrants, options, and other rights that give the holder the right to acquire common stock or instruments convertible into common stock. An equity investment does not include any position or security held in a trading account in accordance with applicable accounting principles and as part of an underwriting, market making or dealing activity.

A *nonfinancial* equity investment means an equity investment made by the BHC or any of its subsidiaries (including all U.S. offices, International Banking Facilities, foreign branches, branches in Puerto Rico and U.S. territories and possessions, and majority-owned bank and nonbank domestic and foreign subsidiaries, including

Edge and agreement subsidiaries, domestic nonbanking subsidiaries, and small business investment companies (SBICs)):

- pursuant to the merchant banking authority of section 4(k)(4)(H) of the BHC Act (12 U.S.C. 1843(k)(4)(H)) and subpart J of the Board's Regulation Y,
- under section 4(c)(6) or 4(c)(7) of the BHC Act (12 U.S.C. 1843(c)(6) and (c)(7)) in a nonfinancial company (as defined below) or in a company that makes investments in nonfinancial companies,
- investments made through a SBIC that is consolidated with the BHC or subsidiary, or in an SBIC that is not consolidated, under section 302(b) of the Small Business Investment Act of 1958,
- in a nonfinancial company under the portfolio investment provisions of the Board's Regulation K (12 CFR 211.8(c)(3), or
- in a nonfinancial company under section 24 of the Federal Deposit Insurance Act (12 U.S.C. 1831a).

This question does not apply to equity investments that a BHC or any of its subsidiaries may make under other legal authorities. For example, this question does not apply to nonfinancial investments made by an insurance company subsidiary of a financial holding company under section 4(k)(4)(I) of the BHC Act (12 U.S.C. 1843(k)(4)(I)). Also, this question does not apply to DPC investments.

Acquisition cost is the amount paid by the BHC for the nonfinancial equity investment when it was acquired.

Capital is the amount reported in the Balance Sheet, item 16(f).

A *nonfinancial company* is a company that is engaged in any activity that has not been determined to be financial in nature or incidental to a financial activity under section 4(k) of the BHC Act (12 U.S.C. 1843(k)).
