**Report of Changes in
FBO Organizational Structure**

Reporting Form FR Y-10F

January 2002

The Report of Changes in FBO Organizational Structure (FR Y-10F)

GENERAL INSTRUCTIONS

Introduction

Foreign banking organizations (FBOs) should use this form to report certain investments in U.S. bank and nonbank companies and in certain foreign companies that conduct activities in the United States.

This instruction book is divided into the following sections:

- (1) General Instructions, describing overall reporting requirements;
- (2) Specific Instructions for completing the:
 - (a) Cover Page,
 - (b) Characteristics Schedule,
 - (c) Investments and Activities Schedule,
 - (d) Merger Schedule, and
 - (e) Branch, Agency, and Representative Office Schedule of the report;
- (3) Glossary;
- (4) Appendices consisting of definitions of the Federal Reserve Board of Governors' legal authority codes and activity codes; and
- (5) Detailed examples of how to complete the report form.

Refer to the Glossary for additional information and for definitions of terms used in these instructions.

Reporters are required to prepare and file this report in accordance with these instructions to reflect an accurate presentation of their organizational structure. Section 8 of the BHC Act provides for civil monetary penalties that could be levied for the submission of false or misleading reports, failure to submit a report, or the late filing of a report. If it is discovered that information has been reported incorrectly, corrected information must be reported immediately.

Who Must Report

All FBOs (reporters) are required to file the FR Y-10F to report information on banking and certain nonbanking activities conducted in the United States, either directly, or indirectly, through subsidiaries (excluding those held through a U.S. Bank Holding Company (BHC), those held through nonqualifying FBOs that are BHCs), and those that do not qualify for limited exemptions under section 211.23(c) of Regulation K.

Note: the term FBO includes those foreign organizations that have effectively elected to become a financial holding company (FHC).

Where to File

The reporter should submit the reports to the appropriate Federal Reserve Bank (see Glossary for definition of appropriate Federal Reserve Bank).

When to Report

All reports pertaining to FBO holdings and activities in the United States, including new activities commenced and investments made under an FHC authority, must be received within thirty (30) calendar days of the occurrence of a reportable transaction or event. Earlier submission would aid the Federal Reserve in reviewing and processing the reports.

Reporters that are unable to obtain the required officer's signature on their completed original reports by the reporting deadline may contact the appropriate Federal Reserve Bank to arrange for the timely submission of the required data and the subsequent filing of their signed report.

The original report and one copy should be received within the deadline listed above. The term "reporting deadline" is defined as the date by which a reporter's completed FR Y-10F is due at the appropriate Federal Reserve Bank.

What Must Be Reported

A first-time reporter must provide the required information for its direct activities and for all entities within its organization that are reportable on the FR Y-10F (as defined below) and should enclose an organization chart containing these entities. This organization chart may differ from the one provided for the FR Y-7, Annual Report of Foreign Banking Organizations, since the list of reportable entities on the FR Y-7 is more comprehensive. Note that the term entity includes general and limited partnerships and certain trusts.

Reportable Entities:

- Reporters;
- U.S. branches, agencies, representative offices and managed non-U.S. branches of each FBO that is itself a foreign bank;
- Direct U.S. offices of an FBO (other than a foreign bank) that conduct nonbanking activities in the United States;
- BHCs, and U.S. banks that are not held through a U.S. BHC, and FBOs:
 - In which the reporter directly and/or indirectly owns, controls, or holds with power to vote more than 5 percent of the outstanding shares of any class of voting securities; or
 - That the reporter controls because of its interest in voting securities or otherwise (see Glossary for definition of control).
- Except as described below, and for merchant banking investments and insurance company subsidiaries, other U.S. and non-U.S. companies directly or indirectly engaged in business in the United States that are not held through a U.S. BHC (including savings associations, Edge corporations, and agreement corporations):
 - In which the reporter, directly and/or indirectly owns, controls, or holds power to vote 25 percent or more of the outstanding shares of any class of voting securities; or
 - That the reporter controls through means other than ownership of securities (see Glossary for definition of control).
- Subsidiaries that are direct or indirect holders of any of the above companies within the organization (for companies reportable solely due to this criteria, provide only Section A of the Investments and Activities Schedule and item 4.c of Section B of the Investments and Activities Schedule);
- A specific merchant banking or insurance company investment made by an affiliate of a FHC is reportable if the FHC and its affiliates on a combined basis acquire more than 5 percent of the voting shares, assets, or ownership interests of a company engaged in a non-financial activity at a cost that exceeds the lesser of 5 percent of the parent FHC's Tier 1 capital or \$200 million (see Section C of the Investments and Activities Schedule for more information on reporting merchant banking investments);
- Financial or other subsidiaries controlled by a reportable U.S. bank subsidiary; and
- Any entity not mentioned above that is required to file a financial report with the Federal Reserve System.

Note: When a reporter is determining whether it should report a bank or company, the reporter should account for *all* shares it is deemed to control (including, but not limited to: shares held in a fiduciary capacity for the benefit of the reporter's employees, members, shareholders, subsidiaries; shares held in a fiduciary capacity for which the reporter has sole discretionary power to exercise voting rights; and securities that are immediately convertible at the option of the holder to voting shares) and the reporter should check to see if any other basis for control exists (such as a management agreement or the power to control the election of a majority of directors). (see Glossary for definition of control).

NOTE: When a bank or other company is reportable because of the reporter's ownership, control, or power to vote shares of a class of securities, the reporter should report information for the class of voting securities in which its ownership interest is greatest on a percentage basis. See the specific instructions for the Investments and Activities Schedule for more detailed information on how to report voting interests.

Do not report the following:

- Assets other than shares of a company, unless (a) the reporter is deemed to control the company by acquiring all or substantially of the company's assets or (b) the reporter's interest in the company is a reportable merchant banking investment as described in the "Reportable Companies" section above;
- Companies held pursuant to Section 211.23(f)(4) or (5) of Regulation K. Companies held pursuant to Section 211.23(f)(5) should be reported annually in the FR Y-7 organization chart Report Item 3.b along with their activity and business measurement test;
- Companies that are owned or controlled by U.S. BHCs, state member banks, and Edge and agreement corporations, which are reported on the form FR Y-10, Report of Changes in Organizational Structure;
- Foreign Investments made by a bank, BHC, or Edge or agreement corporation under Subpart A or C of the Board's Regulation K (report these investments on the FR Y-10);
- Companies held directly or indirectly (other than reportable merchant banking investments described in the "Reportable Companies" section above) by a Small Business Investment Company registered with the Small Business Administration;
- Companies that are held solely as collateral securing an extension of credit;
- Nonbank companies that a reporter does not control (see Glossary for definition of control), unless the reporter's interest in the company is a reportable merchant banking investment as described in the "Reportable Companies" section above;
- Companies that are controlled by an insurance underwriter unless such companies are (a) the highest-tier provider of a primary line of business (e.g., property/casualty, accident/health), (b) required to file a financial report with the Federal Reserve System, or (c) a reportable merchant banking investment described in the "Reportable Companies" section above;

- An investment company whose only activity is to own assets for the benefit of someone other than the reporter or its affiliates;
- Companies that have been set up as name-saving organizations or have been formed or incorporated but do not yet conduct any business activity. These companies become reportable only when they commence an activity;
- Special purpose vehicles formed as vehicles for specific leasing transactions;
- Companies acquired in satisfaction of a debt previously contracted or that were formed solely to hold shares or other assets acquired in satisfaction of a debt previously contracted;
- Companies or other assets that must be divested or conformed in accordance with the BHC Act or the Board's Regulation Y (other than the reportable merchant banking investments described in the "Reportable Companies" section above); and
- Additional activities that have been approved but not yet commenced.

Reportable Transactions:

The following types of transactions must be reported:

- Commencement of operations;
- Commencement of an additional activity within a reporter's organization for the first time (once an FHC reports an activity under section 4(k) of the BHC Act, the FHC thereafter may conduct the activity through any part of its *existing* organization without submitting an additional report);
- Acquisitions (including the acquisition of all or substantially all the assets of a bank or company), mergers, sales, or transfers of reportable companies;
- Changes to previously reported items (including name, location, legal authority, equity interest, primary activity, business entity type, etc.);
- Termination by a reportable company of a previously reported activity.
- Openings and closings, issuance and surrender of licenses and relocations of U.S. branches, agencies, representative offices, commercial lending company subsidiaries and managed non-U.S. branches of FBOs.

All information provided for a particular transaction date or effective date should reflect the structure of the organization as of close of business on that date. For purposes of this report, close of business occurs when the accounting books for the company were closed for the day.

Confidentiality

The completed version of this report is available to the public upon request on an individual basis. However, a reporter may request confidential treatment for portions of the report if the reporter is of the opinion that disclosure of specific information in the report would likely result in substantial harm to its competitive position, or that disclosure of the submitted information would result in an unwarranted invasion of personal privacy.

A request for confidential treatment must be submitted in writing, in a separate letter, concurrently with the submission of the report. The request must discuss the justification for the confidentiality requested and must demonstrate the specific nature of the harm that would result from public release of the information. Merely stating that competitive harm would result or that information is personal is not sufficient.

When confidential treatment is requested, those pages should be labeled "confidential" and submitted under a separate cover page marked "confidential".

The Board will determine whether information submitted with a request for confidential treatment will be so treated, and will advise the reporter through the appropriate Federal Reserve Bank.

If a determination is made to release any of the confidential information pursuant to a judicial order or other determination, the Board will inform the reporter prior to release of the information. Release of this information is governed by the Board's Rules on the Availability of Information (See 12 CFR part 261).

Filing by Tiered Organizations

A tiered FBO exists when an FBO directly or indirectly controls another FBO. A single entity may file on behalf of a multi-tiered FBO, reporting lower-tier FBOs on the Characteristics Schedule and the Investments and Activities Schedule. However, the top tier entity is responsible for the accuracy, completeness, and timeliness of each report even if it is prepared by a lower-tier entity.

Additional Reporting Materials and Information Requests

In certain instances (e.g., large mergers or corporate reorganizations) where numerous structure changes occur, the appropriate Federal Reserve Bank may request that a reporter submit additional material, such as before and after organization charts or a narrative description of complex transactions, to aid in reporting. While these additional materials should be included when reporting complex changes, they will not be accepted as a substitute for the reports.

The reporter should follow the procedures on confidentiality set out above in filing additional information to the report, if applicable.

In instances involving the merger of organizations, the reporter may request information from the appropriate Federal Reserve Bank to assist them in preparing a comprehensive report of the transaction, for example, by providing a report indicating the organizational structure of the nonsurviving reporter prior to the merger.

Report Format

The report is comprised of five parts:

- (1) Cover Page;
- (2) Characteristics Schedule;
- (3) Investments and Activities Schedule;
- (4) Merger Schedule; and
- (5) Branch, Agency, and Representative Office Schedule.

Depending on the nature of reported changes in structure and activity information, it will not always be necessary to file all schedules. Blank schedules should

be omitted. Several supporting schedules may be included with one cover page. If more than one entry is needed for a particular submission, multiple copies of the schedule should be submitted.

The top-tier FBO must complete the *Cover Page* and must include the signature of an officer of the reporter. One submission is defined as all schedules required to be submitted as of one report date. One submission may contain transactions occurring on the same day, or may contain transactions occurring on different days as long as each transaction is reported within thirty calendar days of its occurrence. The content of each submission will vary depending on the type of transaction being reported.

Use the *Characteristics Schedule* to report the initial establishment of a relationship and all changes to legal names and location information for any reportable company. This schedule is not applicable to a U.S. branch, agency, or representative office, or managed non-U.S. branch of an FBO.

Use the *Investments and Activities Schedule* to report acquisitions, sales, transfers, and liquidations of all reportable entities. Also report the commencement or termination of a business activity by a reportable entity, and the termination of reportability of entities on this schedule.

Use the *Merger Schedule* to report survivor and nonsurvivor information, as well as the effective date of the merger.

Use the *Branch, Agency, and Representative Office Schedule* to report changes to the name, location, or other office information for these companies and managed non-U.S. branches.

See the specific instructions for each schedule for more detailed information.

The Federal Reserve may require the filing of amended pages of the FR Y-10F if previously submitted reports contain errors.

Specific Instructions for the Investments and Activities Schedule (FR Y-10F)

What To Report

Use the Investments and Activities Schedule to report investments in and activities of a reportable company within the reporter's organization as defined in the General Instructions.

Report each business event as a separate transaction even though several events may have occurred on the same day. For example, if a new subsidiary was established and it acquired a reportable company on the same day, a separate schedule should be filed for each company. The establishment of the new subsidiary should be reported as one transaction on one schedule and the acquisition of the reportable company by the new subsidiary should be reported on a separate schedule.

All information provided for a particular transaction date or effective date should reflect the structure of the organization as of close of business on that date. For purposes of this report, close of business occurs when the accounting books for the company were closed for the day.

Do not report companies held pursuant to Section 211.23(f)(4), or (5) of Regulation K and companies that are owned or controlled by U.S. BHCs. For a complete list of exclusions, see page GEN-2 of the General Instructions.

The following are examples of business transactions that should be reported on this schedule. A complete description of reportable transactions and the specific events that trigger them is included in the item-by-item instructions on pages I&A 2 through 8 below:

INVESTMENTS:

- Acquisition or formation of an FBO,
- Formation of a new BHC, bank, or nonbank subsidiary;
- Acquisition of more than 5 percent of a class of voting shares or control of a bank or BHC;
- Certain changes in ownership of bank or BHC shares;
- Acquisition of control of a nonbanking company;

- Any change in a reporter's voting interest in a nonbanking company that causes a direct holder's interest to fall within a different range than that previously reported at item B.4.c;
- The transfer of all or part of a reportable company to another subsidiary within the reporter's organization;
- The acquisition of an existing active company by the FBO or by a direct or indirect subsidiary of the FBO,
- Any change that causes a previously reportable company to cease to be reportable; and
- Certain large merchant banking investments.

ACTIVITIES:

- The commencement by an FHC of a new business activity directly or indirectly,
- The commencement by an FBO that is not a foreign bank of a primary or secondary nonbanking activity at a U.S. office
- A change in the primary or secondary activity of any reportable company, and
- A change in the legal authority under which a reporter chooses to conduct an activity,
- The termination of an activity by the reporter or any reportable company.

Note: Do not report activities that have been approved but not yet commenced.

The information reported on the Investments and Activities Schedule should provide an accurate representation of transactions affecting the organizational structure and activities of the reporter's organization. Information on each transaction should be complete and should indicate the type of transaction, when the transaction occurred, the companies involved in the transaction, and the legal authority code that applies to the transaction.

The Investments and Activities Schedule provides space for reporting one investment transaction. If more investments are being reported, duplicate the

Investments and Activities Schedule and submit the appropriate number of schedules.

Certain items are required for all transactions while others pertain only to specific types of reportable transactions. See the item descriptions and sample business transactions (Appendix C) for more information.

In certain instances, such as the acquisition or formation of a new company, detailed information on the Investments and Activities Schedule must be accompanied by characteristics information. The characteristics information must be filed on the Characteristics Schedule and included in the report submission.

Check One:

Initial/Update/Correction: Check the appropriate box to indicate whether this is an Initial report, an Update to an existing report, or a Correction to data previously submitted in error.

Section A—Direct Holder and Reportable Company

Item A.1 - Direct Holder (Parent) Name and Location

Legal Name: This item indicates the direct holder of the reportable company. The top-tier FBO should report information for each direct holder of a reportable company. A top-tier FBO reporting itself should leave this item blank.

City, State/Province, Country: Provide the city, state/province, country (if non-U.S.) of the direct holder.

Item A.2 - Reportable Company Name and Location

Legal Name: Provide the legal name of the company that is the subject of the transaction. For top-tier FBO formations and subsequent reports regarding those entities, report the FBO name in this item. For investment transactions such as acquisitions, sales, or transfers, use the name of the company that was acquired, sold, or transferred. When reporting the commencement or termination of a business activity, the reportable company is the company that is

conducting or has ceased to conduct the specified business activity.

Note: When reporting the acquisition of a company whose name was subsequently changed, report the acquisition under the previous name of the company and file a separate report of the name change on the Characteristics Schedule.

City, State/Province, Country: Provide the city, state/province, country (if non-U.S.) of the reportable company.

Section B—Investments

When reporting information in Section B, Section A must also be completed. For top-tier FBO formations, this section need not be reported. Companies that are controlled by an insurance underwriter should be reported in this section only if such companies are (a) the highest tier provider of a primary line of business (e.g., property casualty, accident/health) or (b) required to file a financial report with the Federal Reserve System. *For reporting of merchant banking investments, please refer to Section C.*

Item B.1 - Transaction Type

Check the box that best describes the type of transaction being reported. This item must be reported for all investment transactions. Select a type from the following list.

Change in Ownership/Control: This transaction type should be used to report an increase or decrease of the reporter's percent ownership of a class of voting securities in the reportable company. Do not use this item to report liquidation, transfer, or sales.

Commencement: To report the commencement of a new relationship with the reportable company.

Liquidation: To report the liquidation of a previously reportable company. This transaction type should not be used to indicate the sale of the reporter's entire interest in a company. Use the transaction type Sale for that event.

No Longer Reportable: to indicate that the previously reportable investment in the reportable company no longer meets the reportability criteria.

Sale: This transaction type should be used to report the sale of any direct holder's *entire* interest in a company to an unaffiliated entity.

Transfer within the reporter's organizational structure: This transaction type should be used to report the transfer of a company from one direct holder within the reporter's organization to another direct holder within the same reporter's organization. The direct holder listed in Section A should denote the new direct holder. The prior direct holder should be reported in Section B, Item 3. This type also should be used for partial transfers of shares within the reporter's organization.

Other: Provide a text description for transactions that cannot be classified using the transaction types listed above.

Item B.2 - Transaction Date

Provide the date on which the transaction occurred.

Item B.3 - Legal name of the former direct holder if Transfer.

If the transaction type being reported in Item B.1 is *Transfer within the reporter's organizational structure*, report in this item the legal name and location of the former direct holder of the reportable company. This item needs to be completed only by the new direct holder of the reportable company.

Item B.4 – Ownership/Control by the Direct Holder

For purposes of Item B.4, the term voting interest includes owning, controlling, or holding voting power for voting securities. The term aggregate voting interest is used to refer to the total voting interest held by a reporter, directly and/or indirectly. For purposes of this form, a reporter is deemed indirectly to control shares held by any bank or other company that the reporter controls through a voting interest or otherwise.

For information about how properly to calculate a voting interest in a bank, BHC, or other company,

see the provisions of the Glossary to this form and of the Board's Regulation Y relating to voting securities and control (see sections 225.2(e), (k), and (q)(1)-(3) of Regulation Y (definitions of control, outstanding shares, voting securities, nonvoting shares, and class of voting shares, respectively); see also section 225.31(d) of Regulation Y (rebuttable presumptions of control)). If a reporter is uncertain about how to calculate a voting interest or is uncertain as to whether a basis of control exists, it should contact staff of the Board's Legal Division.

Items B.4.a and B.4.b apply ONLY if the reportable company is an FBO, bank, or BHC (see the Glossary for the applicable definition of bank)

A reporter's interest in a bank or BHC is reportable when:

- The reporter acquires an aggregate voting interest of more than 5 percent of the outstanding shares of any class of voting securities (see Item B.4.a);
- The reporter acquires control of the bank or BHC through a voting interest or any other means (see item B.4.d); or
- The reporter's aggregate voting interest, when rounded down to the nearest whole percentage, changes by one percent or more (see item B.4.a).

Item B.4.a – Exact percentage of outstanding shares in a class of voting securities

A reporter that has an aggregate voting interest of more than 5 percent of the outstanding shares of any class of voting securities of an FBO, bank, or BHC must report the exact percentage of its voting interest, rounded down to the nearest whole percentage. *Exception: a 50.01% interest should be reported as 51%, not rounded to 50%, in accordance with generally accepted accounting principles (GAAP).* A reporter that owns shares of more than one class of voting securities should report information on the class of shares in which the reporter's interest is greatest on a percentage basis. If a reporter has multiple transactions in and/or direct holders of FBO, bank, or BHC shares, the reporter should prepare a separate Investments and Activities schedule for each transaction and/or direct holder of shares.

A change in a reporter's aggregate voting interest is reportable if, following the changes, the reporter's percent interest, when rounded down, is different than the percentage previously reported. If the reporter holds its interest through more than one company, the reporter need only submit a separate Investments and Activities schedule for the direct holder(s) whose interest(s) changed.

Item B.4.b -- Exact percentage of nonvoting equity

A nonvoting equity interest in an FBO, BHC, or bank does not render the FBO, BHC, or bank a reportable company unless that nonvoting interest alone or in combination with other factors, constitutes a basis of control (see Glossary for definition of control). However, for each FBO, BHC, or bank that otherwise is reportable, the reporter must report the exact percentage it controls of the FBO, bank, or BHC's total nonvoting equity (if 25% or more), rounded down to the nearest whole percentage. If the reporter's total nonvoting equity interest is held through more than one company, the reporter should report the percentage of total nonvoting equity controlled by each direct holder on a separate Investments and Activities Schedule.

Item B.4.c applies ONLY if the reportable company is a nonbanking company (see the Glossary for the applicable definition of nonbanking company):

A reporter's interest in a nonbanking company (other than a company held as a merchant banking investment) is reportable when:

- The reporter acquires an aggregate voting interest of 25 percent or more of the outstanding shares of any class of voting securities (see Item B.4.c);
- The reporter acquires control of a nonbanking company through means other than a voting interest (see Item B.4.d);
- The reporter's aggregate voting interest in a nonbanking company changes and, as a result of the change, the reporter's interest falls within a different percentage range than that previously reported (see instructions for Item B.4.c).

Item B.4.c -- Ownership interest in a class of voting securities

A reporter must report its aggregate voting interest in a company when the reporter acquires 25 percent or more of the outstanding shares of any class of the company's voting securities. If a reporter's voting interest involves shares of more than one class of voting securities, the reporter should report information for the class of securities in which the reporter's interest is greatest on a percentage basis. If a reporter has multiple transactions in and/or direct holders of shares of a reportable company, the reporter should prepare a separate Investments and Activities schedule for each transaction and/or direct holder of shares.

Voting interests in nonbanking companies need not be reported on an exact percentage basis. Rather, the reporter should check the box indicating the appropriate range of the voting interest of each direct holder. When choosing the appropriate range, round down rather than up to the nearest whole percentage. *Exception: a 50.01% interest should be reported as 51%, not rounded to 50%.* A change in a reporter's voting interest in a company is reportable only if the change results in one or more direct holder(s) holding a voting interest that is outside the range of that it previously reported. In such cases, the reporter should provide an updated Investments and Activities schedule for the appropriate direct holder(s) indicating the appropriate range for the direct holder's new voting interest.

Item B.4.d must be completed for ALL companies reportable under Section B:

Item B.4.d -- Other basis of control

Check the appropriate box to indicate whether the reporter controls the reportable company through means other than a voting interest. See the Glossary for the complete definition of control.

As indicated above, a reporter that is uncertain about whether or not it controls a bank, BHC, or nonbanking company should consult with staff of the Board's Legal Division.

Section C—Merchant Banking Activities and Reportable Merchant Banking and Insurance Company Investments

When reporting information about merchant banking and investment activities, provide the current legal name of the reportable company from Section A.

General Description of Authority

A FHC that conducts merchant banking activities pursuant to section 4(k)(4)(H) of the BHC Act (see Glossary for definition of merchant banking) may invest in any nonfinancial company, so long as the investment is not made by or on behalf of a depository institution or a subsidiary of a depository institution (see 12 U.S.C. § 1843(k)(4)(H); and 12 CFR § 225.170 *et seq.*). A FHC also may make insurance company investments through a subsidiary that predominantly is engaged in underwriting insurance (other than credit-related insurance) or providing or issuing annuities (see 12 U.S.C. § 1843(k)(4)(I)).

Merchant banking and insurance company investments by definition involve investments in companies that engage in *nonfinancial* activities. An acquisition of an interest in a company that only engages in financial activities is not considered a merchant banking or insurance company investment, even if the FHC acquires the interest purely for investment purposes. Acquisitions of companies engaged in financial activities therefore, should be reported in accordance with the instructions in Section B above.

Commencement of Merchant Banking or Insurance Company Activity, De novo, or Acquisition of a Going Concern

A FHC must report commencement of the merchant banking or insurance company investment activity de novo in accordance with the instructions for Sections B and D. In Section D, the FHC would report merchant banking or insurance company investments, as applicable, as a new activity. Responses to the questions in Section C would be required only if an investment made in connection with commencement of the merchant banking or insurance company investment activity met the requirements for filing Section C, as discussed in more detail below.

A FHC also must report the acquisition of control of a going concern that is engaged in merchant banking or insurance company investment activities in accordance with the instructions for Sections A, B, and D. For such acquisitions, the FHC would report the merchant banking or insurance company investment activity in Section D only if merchant banking were the primary or secondary activity of the acquired company.

Reporting Particular Investments made under Merchant Banking or Insurance Company Investment Authority

Generally, particular investments in a nonfinancial company made by a FHC under its merchant banking or insurance company investment authority are not reportable. However, a particular investment must be reported in accordance with this Section C if, and only if, the FHC's investment in a particular nonfinancial company is made as part of a merchant banking or insurance company investment activity and the FHC on a consolidated basis (directly and/or indirectly through any of its subsidiaries):

- Acquires more than 5 percent of the voting shares, assets, or ownership interests of the company (including an interest in a private equity fund); and
- The total cost of the investment exceeds the lesser of \$200 million or 5 percent of the FHC's Tier 1 capital (companies that are not required to report Tier 1 capital should instead measure the cost of the investment as a percentage of their total risk-based capital to determine reportability).

To satisfy the applicable notice requirements in Regulation Y (see 12 CFR §§ 225.87(b)(4) and 225.175(c)(2)), a FHC must report an investment in a nonfinancial company within 30 days of the *initial* date on which the FHC's investment meets the above criteria. A FHC filing a FR Y-10F to report a merchant banking investment should only submit one Investments & Activities schedule that describes its interest in the company and should only provide the information requested in this Section and in Section A, items 1 and 2.

The Characteristics Schedule and Section D of this Schedule are not required in connection with a report of a large merchant banking investment.

Changes to Previously Reported Investments

Updates to previously reported merchant banking investments (e.g., incremental increases in investment or divestitures of a particular investment) are not reportable.

Item C.1 -- Percentage interest in the reportable company

Report each direct holder's percentage interest in the reportable company it is holding as a merchant banking or insurance company investment and check the appropriate box to indicate whether the interest is in voting equity or other ownership interest, or in assets. If the FHC made its initial merchant banking investment in a company through more than one direct holder, the FHC should only submit one Investments and Activities Schedule. The FHC should identify one direct holder in Section A of this schedule and submit a list that identifies the remaining direct holders of the initial investment. Report the percentage interest, rounded down to the nearest whole percentage. *Exception: a 50.01% interest should be reported as 51%, not rounded to 50%.*

Item C.2 -- Cost of investment

Report the FHC's initial aggregate cost (e.g., consolidated organization cost), rounded to the nearest million dollars.

Item C.3 -- Transaction Date

Provide the date on which the initial investment was made.

Section D—Activities

The appropriate Item(s) of this Schedule should be completed in connection with the following events:

- An initial report in which the reporter reports its own primary and secondary activities;
- Acquisition of and/or commencement of business at a reportable bank or BHC;
- Commencement de novo of a financial activity through an existing subsidiary of a FHC, if the FHC previously has not notified the appropriate

Federal Reserve Bank that the FHC is engaged in the activity;

- Acquisition by a FHC of control of a company that is engaged in a financial or incidental activity;
- Acquisition by a FBO of control of a going concern that is engaged in business in the United States;
- A change in the primary or secondary activity of any reportable company (including changes that result from commencing a new activity at the reportable company);
- The termination of any activity at a previously reported company; and
- A change in the legal authority under which a reportable company conducts a primary or secondary activity.

For each reportable activity transaction, the reporter must provide an activity code that describes the activity being reported. The reporter should consult Appendix B (Federal Reserve Board of Governors' Activity Codes) and enter the alphanumeric code that best describes the activity being reported. If, and only if, an activity is not listed in Appendix B, the reporter should select a Northern American Industry Classification System (NAICS) code that describes the activity. For more information about NAICS codes, consult the Census Bureau's web site

<http://www.census.gov/epcd/www/naics.html>.

When using NAICS codes, restrict your selection to four digits.

When reporting information about the legal authority under which an activity is conducted, the reporter should choose the appropriate legal authority from Appendix A (Federal Reserve Board of Governors' Legal Authority Codes).

Item D.1 applies ONLY to activities conducted by FHCs under section 4(k) of the BHC Act.

Item D.1 -- Post-transaction notice of a financial activity conducted under section 4(k) of the BHC Act

A FHC filing a report to satisfy the post-transaction notice requirement of section 4(k) of the BHC Act and section 225.87 of Regulation Y must use this item to identify the new activity it has commenced or

the activity of the company it has acquired, as appropriate.

Commencement of an activity de novo through an existing subsidiary. A FHC that commences a financial activity under section 4(k) of the BHC Act for the first time through a subsidiary it already controls must complete this item. The FHC thereafter may engage in the activity through any of its *existing* subsidiaries without filing an additional post transaction notice, Item D.1.

A FHC that commences an activity simultaneously through more than one subsidiary need only submit one report. Section A of the Investments & Activities Schedule should be used to identify one subsidiary through which the activity was commenced, and the reporter should attach a list indicating the name and address of all other subsidiaries that simultaneously commenced the activity. Because primary and secondary activities of a going concern are determined as of a company's most recent fiscal year end, items D.2 and D.3 below are not required in connection with commencing a new financial activity de novo.

Acquisition of control of a company engaged in a financial activity. A FHC also is required to submit a post-transaction notice after acquiring control, under section 4(k) of the BHC Act, of a company engaged in a financial activity, regardless of whether the FHC already is engaged in the activity elsewhere within its organization. A FHC that has acquired a new company engaged in a financial activity must provide complete structure information for the newly reportable company, including items D.2 and D.3 below.

Items D.2 through D.4 are relevant to all reporters except FHCs reporting commencement of a financial activity de novo.

Item D.2 -- Primary Activity

Provide information about a company's primary activity when reporting the company for the first time and when the primary activity changes. For going concerns, the primary activity is the activity that generated the largest percentage of the company's gross revenue as of the company's most recent fiscal year end. For companies that are commencing

business or have not operated for an entire fiscal year, the primary activity is the activity that the reporter expects to generate the largest percentage of the company's gross revenue during the current fiscal year. Information about the legal authority under which a company conducts the activity is required.

Changes in legal authority. A change in the legal authority under which a reportable company conducts a primary activity also is reportable. For example, a FHC that conducts nonbanking activities through a reportable company under section 4(c)(8) of the BHC Act may instead choose to conduct the activity under section 4(k).

Transaction type: Check the appropriate box to indicate whether the reporter is reporting the commencement of a primary activity in connection with an initial report or a change with respect to the primary activity of a previously reported company.

Commencement: This transaction type should be used when reporting a company for the first time.

Update: This transaction type should be used to report changes to a previously reported primary activity or the legal authority under which it is conducted.

Transaction date: Provide the date on which the activity was commenced or on which the reportable change occurred.

Legal authority code: Enter the code from Appendix A that identifies the legal authority under which the activity is conducted. If code 999 "Other" is chosen, please provide a text explanation.

Activity code: Enter the FRS Activity code from Appendix B that best describes the primary activity of the reportable company. If, and only if, the activity is not described in Appendix B, enter the appropriate NAICS code, restricting your selection to four digits. In the event that an activity is listed neither in Appendix B nor the NAICS codes, provide a text description of the activity in the space provided.

Description of activity: A text description of an activity must be entered when a reporter cannot identify either a FRS Activity Code or a NAICS code that corresponds to the activity.

Item D.3 -- Secondary Activity

If the reportable company is engaged in more than one activity, report information on the company's secondary activity. For going concerns, the secondary activity is the activity that generated the second largest percentage of the company's gross revenue as of the company's most recent fiscal year end. For companies that are commencing business or that have not operated for an entire fiscal year, the secondary activity is the activity that the reporter expects to generate the second largest percentage of the company's gross revenue during the current fiscal year.

Check the appropriate box to indicate whether the company is reporting a commencement or an update. In addition, report the transaction date, activity code (or, where relevant, a description of the activity), and legal authority code. For detailed instructions on how to complete these items, see the instructions for Item D.2 above.

Item D.4 -- Termination of any activity

Item D.4 should be completed when a reportable company ceases to engage in an activity previously reported in items D.2, or D.3. The reporter should provide the activity code that identifies the terminated activity. If a reportable company has become totally inactive, report "ALL" in the activity code field to indicate that all business activities have ceased.

A reporter should complete this item when it no longer engages in an activity through any part of its organization. In that case, the reporter should report itself as the reportable company, provide the activity code that identifies the terminated activity, and report "ALL" in the activity code field to indicate that all reportable companies held by the reporter have ceased engaging in the activity.

Specific Instructions for the Merger Schedule (FR Y-10F)

All information provided for a particular transaction date or effective date should reflect the structure of the organization as of close of business on that date. For purposes of this report, close of business occurs when the accounting books for the company were closed for the day.

- (iv) Conditioning in any manner the transfer of 25 percent or more of the outstanding shares of any class of voting securities of a bank or other company upon the transfer of 25 percent or more of the outstanding shares of any class of voting securities of another bank or other company.

A bank or other company is deemed to control voting securities or assets owned, controlled, or held directly or indirectly:

- (i) By any subsidiary of the bank or other company;

- (ii) In a fiduciary capacity (including by pension and profit-sharing trusts) for the benefit of the shareholders, members, or employees (or individuals serving in similar capacities) of the bank or other company or of any of its subsidiaries; or
- (iii) In a fiduciary capacity for the benefit of the bank or other company or any of its subsidiaries.

(B) Rebuttable Presumptions of Control (12CFR §225.31(d)): The following rebuttable presumptions of control shall be used for determining the existence of a control relationship under the definition of control listed above:

- (1) *Control of voting securities.*

- (i) *Securities convertible into voting securities.*

A company that owns, controls, or holds securities that are immediately convertible, at the option of the holder or owner, into voting securities of a bank or other company, controls the voting securities.

- (ii) *Option or restriction on voting securities.*

A company that enters into an agreement or understanding under which the rights of a holder of voting securities of a bank or other company are restricted in any manner controls the securities. This presumption does not apply where the agreement or understanding --

- a) Is a mutual agreement among shareholders granting to each other a right of first refusal with respect to their shares;
- b) Is incident to a bona fide loan transaction; or
- c) Relates to restrictions on transferability and continues only for the time necessary to obtain approval from the appropriate federal supervisory authority with respect to acquisition by the company of the securities.

- (2) *Control over company.*

- (i) *Management agreement.* A company that enters into any agreement or understanding with a bank or other company (other than an investment advisory agreement), such as a management contract under which the first company or any of its subsidiaries directs or exercises significant influence over the general management or overall operations of the bank or other company controls the bank or other company.

- (ii) *Shares controlled by company and associated individuals.* A company that, together with its management officials or controlling shareholders (including members of the immediate families of either) owns, controls, or holds with power to vote 25 percent or more of the outstanding shares of any class of voting securities of a bank or other company controls the bank or other company, if the first company owns, controls, or holds with power to vote more than 5 percent of the outstanding shares of any class of voting securities of the bank or other company.
- (iii) *Common management officials.* A company that has one or more management officials in common with a bank or other company controls the bank or other company, if the first company owns, controls, or holds with power to vote more than 5 percent of the outstanding shares of any class of voting securities of the bank or other company, and no other person controls as much as 5 percent of the outstanding shares of any class of voting securities of the bank or other company.
- (iv) *Shares held as fiduciary.* The presumptions in paragraph (2)(ii) and (iii) above do not apply if the securities are held by the company in a fiduciary capacity without the sole discretionary authority to exercise the voting rights.

(3) *Absence of control.*

For presumptions of noncontrol of a bank or other company, see section 225.31(e) of Regulation Y (12 CFR § 225.31(e)).

(C) Other Means of Control

- (i) *Control based on nonvoting equity.* In some cases, a reporter that owns a large percentage of the nonvoting equity of a bank or other company may be deemed to control that bank or company. If a reporter controls more than 25 percent of the nonvoting equity of a bank or other company, the reporter should consult staff of the Board’s Legal Division to discuss whether a company or bank is controlled and, therefore, reportable.
- (ii) *Acquisition of all or substantially all assets.* A company that acquires all or substantially all the assets of a bank or other company is deemed to have acquired control of that bank or other company.

(D) Is a Security Voting or Nonvoting?:

(1) *Voting Securities.* Shares of common or preferred stock, general or limited partnership shares or interests, or similar interests are voting securities if the shares or interests, by statute, charter, or in any manner, entitle the holder:

- (i) to vote for or to select directors, trustees, or partners (or persons exercising similar functions of the issuing company); or
- (ii) to vote on or to direct the conduct of the operations or other significant policies of the issuing company.

(2) *Nonvoting securities.* Certain preferred shares, limited partnership shares or interests, or similar interests (including some shares or interests that entitle the shareholder to vote for specific matters) are not considered “voting securities” for purposes of Regulation Y. To be considered a nonvoting security, the shares or interests must meet all three of the following criteria:

- (i) The voting rights, if any, associated with the shares or interests must be limited solely to the type of voting rights that corporate laws typically provide regarding matters that would significantly and adversely affect the rights or preference of the security or interest (for example, voting rights regarding the modification of the terms of the security or interest, the dissolution of the issuing company, or the payment of dividends by the issuing company when preferred dividends are in arrears);
- (ii) The shares or interests must represent an essentially passive investment or financing device and must not otherwise provide the holder with control over the issuing company (for example, the interest is less than 10 percent of total equity and the shareholder does not participate in the management of the company); and
- (iii) The shares or interests must not in any manner entitle the holder to select or to vote for the selection of directors, trustees, or partners (or persons exercising similar functions) of the issuing company.

Please see 12CFR §225.2(q) for a more detailed explanation of the criteria used to determine whether a security is voting or nonvoting.

(E) Class of Voting Shares: Shares of stock issued by a single issuer are deemed to be the same class of voting shares, regardless of differences in dividend rights or liquidation preference, if the shares are

voted together as a single class on all matters for which the shares have voting rights, other than matters described in 12 CFR § 225.2(q)(2)(i) that affect solely the rights or preferences of the shares.

(F) Controlled in the Aggregate: When two or more direct holders that are part of the same reporter's organization have a voting equity position in a company that if added together would result in the company being controlled within the reporter's organizational structure. For example, BHC A owns 15% of nonbank Z. BHC B owns 15% of the same nonbank Z. BHC A is a subsidiary of BHC B, which is in turn a subsidiary of top-tier BHC C. When these investments are added together the investment in nonbank Z equals 30% and results in control in the aggregate within BHC C's organization.

De novo: A newly chartered bank or company, a newly opened branch office or a newly commenced activity.

Depository Institution: An institution defined in 12 CFR § 225.2(t) or 12 CFR § 204.2(m)(1).

Financial Holding Company (FHC): A BHC or FBO that effectively has elected to be or be treated as a financial holding company and therefore may conduct activities as outlined in Section 4(k) of the BHC Act.

Financial Subsidiary: A subsidiary of a commercial bank, as defined in Section 121 of the Gramm-Leach-Bliley Act of 1999, 12 CFR § 208.77(e), or Section 46 of the Federal Deposit Insurance Act.

Foreign Bank: An organization that is organized under the laws of a foreign country and that engages directly in the business of banking outside the United

States. The term foreign bank does not include a central bank of a foreign country that does not engage or seek to engage in a commercial banking business in the United States through an office. (12 CFR § 211.21(n)).

Foreign Banking Organization (FBO): A foreign bank organized under the laws of a foreign country that engages directly in the business of banking outside the United States and that operates a branch, agency, or commercial lending company subsidiary in the United States, or that controls a bank in the United States and any company of which the foreign bank is a subsidiary. Unless otherwise noted in these instructions, the term FBO includes foreign financial holding companies. For purposes of this report "foreign banking organization" also includes a foreign bank that controls an Edge or agreement corporation. (12 CFR § 211.2(m) and (n)). The term FBO does not include an agency of a foreign government. Please also refer to the definition for Qualified Foreign Banking Organization.

Foreign Investment: A company acquired pursuant to Subparts A and C of Regulation K (12 CFR 211).

Functionally Regulated Subsidiary: Any subsidiary that is not a BHC or a depository institution and is:

- (i) a broker or dealer registered under the Securities and Exchange Act of 1934;
- (ii) a registered investment adviser, properly registered by or on behalf of either the Securities and Exchange Commission or any State, with respect to the investment advisory activities of such investment adviser and activities incidental to such investment advisory activities,
