Subject: THE FED'S PROPOSED CHANGES TO FOIA RULES

NONCONFIDENTIAL // EXTERNAL

I am categorically opposed to the Fed being allowed under an executive order to defy subpoenas & withhold information. The Fed is already unconscionably & by many accounts criminally secretive. The entire world is well aware that the Fed favors & props up large banks & corporations & does next to nothing for small businesses. In addition, the Fed's record is clearly racist. Who among the Fed's top employees are people of color?
